PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

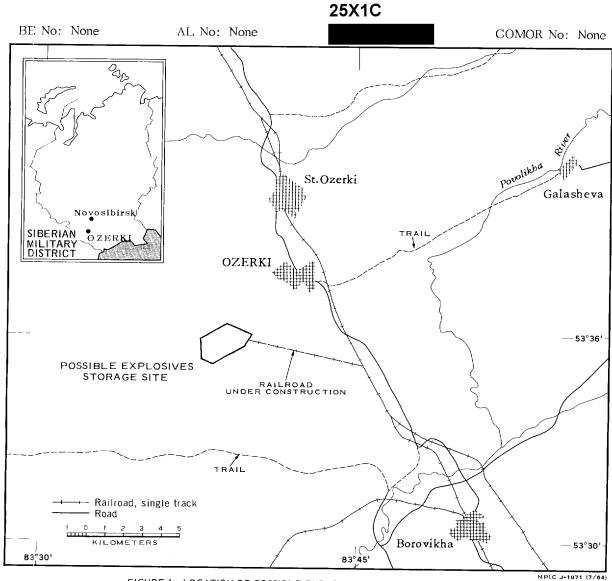

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

A possible explosives storage site is located approximately 28 kilometers (km) northnorthwest of Barnaul and 5.5 km southwest of Ozerki (Figure 1). The installation is not rail served; however, a rail spur appears to be under construction between the installation and the Barnaul-Novosibirsk rail line. The installation is served by unimproved secondary roads which connect it with the Barnaul-Novosibirsk highway.

The installation (Figures 2 and 3) encom-

passes approximately 850 acres and includes seven revetted possible bunkers, eight clearings for bunkers, one possible administrative/barracks-type building, and one support building in a wooded area. The installation has a perimeter firebreak but there is no evidence of a security fence. There has been no apparent change in the installation since its initial coverage in

A military function for this installation cannot be confirmed from available photography.

25X1D

DESCRIPTION OF INSTALLATION

Road Service

Unimproved secondary roads provide access to the installation.

Administrative and Troop Housing Area

Area D (Figure 3) contains one possible administrative/barracks-type building.

Ammunition Storage Area

Area F contains seven possible bunkers measuring approximately 65 by 65 feet and one support building measuring 95 by 65 feet. There are U-shaped revetments around each bunker.
